Activision announced the major details for Season 9 of Call Of Duty Mobile, and The big update is to be released for it. Upcoming spooky season. Players can expect new multiplayer maps, a new submachine gun to unlock, and the return of the fish buffet, also known as piscicultura, a form of aquaculture where the fish are raised in a controlled environment for production and sale. This process involves increasing the fish in large tanks or ponds and providing them with nutrients that monitor their growth. The fish are then harvested for fresh/processed variety and products produced by them (for example:). Types of fish Buffet buffets Agriculture extensive fish: This involves the raising of fish in natural bodies of water, such as lakes, rivers, or ponds. The animals receive an initial feed and are left to grow on their own - resulting in a lower yield but a more natural product. Agriculture intensive fish: This involves controlled environments, such as tanks or recirculating aquaculture systems. The fish receive a high level of feed and oxygen - treatment with water resulting in a higher yield but also more in the process that requires more natural resources (more).

Benefits of Fish Buffet
A djinn named Brigitta poses as a waitress and touches Dean's arm to infect him with her poison. Her touch makes Dean hallucinate his worst fears, including the return of Azazel. He seems on the verge of a panic attack when he is saved by Sam, who injects him with an antidote to the djinn's poison.
